

# How does CreditLink Work? 5 Easy Steps

**CreditLink** will issue your **dealership** a special toll free number(s).

We pay all phone charges, including long distance fees associated with that number(s).

Your **dealership** inserts the **toll free** number(s) in all existing **advertising** with new **taglines** to capture the attention of consumers that might not normally respond to your ads.

**Buyers** can call **24** hours a day, **7** days a week and will be prompted to answer a series of **scripted** questions designed to **filter** out anyone who does not **meet** your **minimum** guidelines.

Your **dealership**, within minutes of a completed call, will begin to **receive** the **buyer's** pre-qualified application with **permission** to run a credit report.

Your **dealership**, will now have all the information needed to **structure** a deal, get it **approved** and **deliver** another vehicle.

**Dealer**

Your dealership inserts the new Toll Free Number(s) in all your current advertisements to capture new customers.
